EDUCATION

2012 , November TINKOFF BANK (tinkoff.ru), Russia
2022, February Senior Software Developer (Python)
 Was supporting legacy code and implementing new features. Stack: Python, Fastapi, Postgres,
Kafka
2020, June MTS GROUP (mts.ru), Russia
2021, August Python Developer
 Created an api for ML model. Stack: Python, Flask, Postgres, Numpy, Pandas, Docker
 Developed (in a team of 5) an infrastructure service with microservice architecture. Was involved
in creation of DAGs for Airflow, tasks for Celery. Was working with DB Postgres and Aerospike,
developing producers and consumers for Kafka and manifests for Kubernetes.
2019, August FIRST LINE SOFTWARE (firstlinesoftware.com), Russia
2020, June Python Developer
 Integrated a back-end of Django-based online shop with Stripe API
 Developed an algorithm for making a graph acyclic by deleting a minimal number of edges
 Increased by 10 times the speed of classification in ML model by optimizing business logic in
Python code base
 Proposed additional validation of ML models and improved F-score from 80 to 92%.
2017, December KINODANZA (kinodanz.ru), Russia
2019, August Python Developer
 Created an application for distributed processing of 3-D models in local network (simplified
analogue of ftrack). This involved designing network and database architecture, developing a GUI
and client-server interaction. Stack: Python 2.7, PySide, MongoDB, XML, CSS(QSS), QWebSocket
 Enhanced the security of companys internal data by creating a Python module for Windows
(using Windows AD, win32api)
2017, July AISA (aisa.ru), Russia
December Web-Developer
 Improved companys product by finding and fixing logical bugs. Worked with: Java, Spring, JS,
EXT.js, Node js, SOAP, SVN
 Made project build on Ant
2016, July MAPPING, Russia
September SWE Intern
 Created a web page for the company site using HTML, CSS and Typescript
 Was involved in back-end development. Learned basics of Java Spring, Hibernate, HQL

2013, September DANONE, Russia

2014, May Assistant in Department of Demand Planning

 Was preparing datasets for demand forecasting

 Worked with visualization tools (mostly Deductor) to present forecasting results to the management

ADDITIONAL INFORMATION

Languages Native Russian, Upper-Intermediate English

Sports&Culture Basketball, chess

Nationality Russian, new repatriant in Israel
